

Local Community Issue

Location of school in Congested Area

Hello Friends, This is Vijay

I am talking of our Local Community issue in front of you. In our city most of the schools are situated in the market or congested area. The school faculty has to face a number of problems due to this.

Our Govt. Model Sr. Sec. School, Sarai Khwaja is also surrounded by a busy market. Students face various types of problems every day. Not only this, the main road of town crosses the main gate of school. In the morning when school time, there becomes the jam like situation and when school is over, some students get injured also.

The hawkers shout to promote their sale. The vendors throw the spoiled vegetables and fruits in the middle of the road due to which a foul smell spoils the studious atmosphere of school. It causes a bad effect on health of students also. Moreover there are present various types of bad elements in market area during schools, due to them girls students feel unsafe themselves.

Forth seeing, the future of students it should be mandatory that school building must transported to some peaceful area.

This will keep making a strong and stable society.

Now, I would like to know the opinion of some local people like shopkeepers, and schoolmates.

Q.1 what type of problems do you face when the school gets over? [Video Link-1](#)

Ans. We get disturbed, when the school closes in the afternoon. This is due to crowd, road gets jammed and this jam enables the customers to reach the shop. They are afraid of crowd and are in hurry, so they go to another shop for purchasing the groceries items.

So school should be shifted to another peaceful place.

Q.2 What type of problems do you face due to this market? [Video Link-2](#)

Ans. I face various types of problems like noise pollution; we cannot concentrate in our studies due to noise of vehicles, vendors, hawkers and other shopkeepers. The road gets blocked, when school gets closed.

So, I request to Government authorities to shift this school in some other peaceful area.

Thank you
